Biodiversity Conservation and Ecosystem Management in Fresh and Transitional Waters

Special Issue Editor

Prof. Dr. Eleonora Ciccotti

Department of Biology, University of Rome Tor Vergata,
00133 Roma, Italy

Email: ciccotti@uniroma2.it

Fresh and transitional water ecosystems are among the most endangered ecosystems in the world, as a consequence of the combined effects of many anthropogenic impacts such as water pollution and withdrawal, flow modification and river fragmentation, land use and reclamation, overexploitation of resources, and the introduction and spread of exotic species.

Keywords

- Biodiversity
- Conservation
- inland aquatic ecosystems
- integrated management
- restoration

Submissions Deadline: 15 March 2021
